
Randy Fraser receives NNSA 2014 Security Professional of the Year award

April 2, 2015

LOS ALAMOS, N.M., April 2, 2015—Randy Fraser of Los Alamos National Laboratory's Security, Safeguards and Emergency Response Directorate received a 2014 National Nuclear Security Administration Security Professional of the Year award.

"I am extremely honored to have the privilege of presenting these amazing individuals with the Bradley A. Peterson Federal and Contractor Security Professional of the Year Awards for significant achievements in the security community," said Jeffrey Johnson, NNSA chief for defense nuclear security. "They represent the very best in our outstanding security community."

"It is both an honor and privilege to be recognized by our NNSA customer with this award," said Fraser. "I also want to thank each member of Los Alamos' Security, Safeguards and Emergency Response Directorate staff. It is due to the quality and

integrity# of those professionals that made this award possible. I simply had the good fortune to be in a leadership position during a difficult project.”

Fraser is program manager for Los Alamos’ Strategic Security Infrastructure Program. He was recognized by NNSA for highly effective leadership in directing the NMSSUP Phase II Transition to Operations/Readiness Verification team.

“Randy Fraser is very deserving of this national level award,” said Michael Lansing, acting principal associate director for Operations and Business at Los Alamos. “For more than three years, Randy provided the security construction verification lead for a \$250 million security construction contract. Working with countless laboratory and headquarters stakeholders, Randy ensured the completed system would protect special nuclear material. In addition, Randy led the local effort to craft a comprehensive After Action Report to NNSA that will be used in years to come.”

The NNSA award recognizes one federal employee and one contractor employee whose contributions to the security programs within the NNSA enterprise exemplify the highest ideals of public service.
